Salary & Benefits- to be negotiated

Job Type- Radio Design Manager, Full-time, Permanent

As the Radio Design Manager, you will create and drive the high and low level design for the radio access network.

We are looking for a skilled high performer, who makes the impossible possible and has a strong can do attitude.

You will have 20+ years' experience working in the telecom industry in the radio network design environment.

You will be comfortable working in a fast-paced, energetic work environment where company structures and roles are dynamic, and you are happy to get involved across projects as required.

The Company:

Launched in April 2009 has designed a disruptive Access Network Technology, a 5G Broadband Internet Alternative made in Germany, with a great global potential and only few competitors.

We are rolling out our network in South Africa, Botswana and Nigeria.

The Radio Design Manager role:

- Detailed Design of Radio Solution Types & Volume Figures
- Seamless Handover Radio Network Design
- Bandwidth Calculations
- Detailed Design of MW Tower Solution
- Detailed Design of Lorry Solution for Test Site
- Technical Negotiation Support with Vendors
- Radio Field Planning, Tower Site Definition
- Pre-configuration of Solution Types and Tower Solution
- Definition of necessary Radio Planning Toolset
- Supervision of Radio Network Performance Measurement Evaluations
- Preparation Project Specific Roll-Out Order List
- Leads a team of 10 experts

The Ideal Candidate for the Radio Design Manager role:

- Bachelor's or Master's degree
- Excellent communication, written and time management skills
- Experienced in multicultural, international environment
- Motivated self-starter with a strong attention to detail who is ready to make a real impact in a fast-growing company
- Excited by the environment a start-up presents
